

# REiSource

Fidelity offers you 24/7 access to REiSource, the industry's most current and comprehensive real estate information database.

## Improve Productivity and Win New Business.

Integrate the most efficient gateway to real estate information solutions ever developed—REiSource. Gain access to the solutions that will improve efficiency and grow your business, while streamlining operations and minimizing costs.

## Property Detail

Easy to read Property Detail reports enable you to quickly locate owner and location, maps, last and prior sales transactions, last three loan transactions, site and property characteristics, as well as assessed value.

## Comparables

Compare your search subject with up to 30 properties and evaluate determining factors like distance from subject, sale price, year built, address, land use code, and last recording, clearly displayed on a street map with aerial and plat map overlays. Up to date with the County Recorder's office.

## Parcel Maps

Use online assessor's maps to locate the subject property and gain understanding of lot boundaries and adjacent parcels.

## Street Maps

Use online street maps to locate and identify the subject property and determine the proximity of the comparables.

## Aerial Map Report

Provides users the ability to navigate and identify target properties for direct marketing, due diligence, investigation and notification purposes through aerial map 3D interface.

## Neighborhood Information

Understand the community with data about local demographics, schools and businesses, and crime statistics. Schools updated quarterly and businesses updated yearly.
